# **DAWOUD MAHMUD**

dawoud.mahmud@gmail.com | (510) 505-4624 | LinkedIn | GitHub | Website

# **EDUCATION**

**Georgia Institute of Technology** 

Expected Graduation: December 2026

M.S. Computer Science

Irvine. CA

University of California, Irvine
B.S. Computer Science, Minor in Mathematics

Graduated: June 2022

Atlanta, GA

**Certifications:** AWS Certified Cloud Practitioner

# **SKILLS**

Languages: Python, C++, Java, Go, JavaScript, HTML/CSS

Tools: Docker, Terraform, Java Database Connectivity (JDBC), Git, AWS Lambda, API Gateway, Cloud Computing

Frameworks: React, SpringBoot, Vue, Bootstrap, Node

Databases: SQL, MySQL, NoSQL, DynamoDB

### **EXPERIENCE**

#### **Contributor and Maintainer**

May 2023 - Nov 2023

Open Source: terraform-provider-mikrotik

San Francisco, CA

- [PRs #1, #2] Leveraged terraform provider SDK and implemented client logic to add new resource types (Wireguard Interface, Peer) to enable terraform's resource management for RouterOS VPN settings
- Wrote CRUD functions for each resources' router settings in Go and created tests to ensure functionality
- Defined the schema for each resource and leveraged client code to manage the state of a Mikrotik router
- Constructed **readme** pages to provide detailed instructions on how to use and test each feature

#### **Software Engineering Intern**

May 2021 - Sep 2021

Extron Inc.

Milpitas, CA

- Analyzed legacy shipping platform in order to create design document, reviewed and improved by internal stakeholders, outlining requirements for a replacement solution
- Synced daily with engineering team in India responsible for software development of the new system, ensuring requirements were understood and deliverables were met on time
- Developed and tested a set of **80+ user journeys** per sprint to verify software met outlined business requirements
- Directed project to 75% completion, presented system overview to upper management, and outlined remaining deliverables

## **PROJECTS**

**OuickLink** 

Dec 2023 - Jan 2024

San Francisco, CA

- URL Shortener (<a href="https://dawoudmahmud.com/quickLink">https://dawoudmahmud.com/quickLink</a>)
- Engineered a serverless architecture using AWS Lambda and API Gateway for URL shortening and redirection
- Integrated **DynamoDB** as a scalable NoSQL database for storing URL mappings and tracking hit counts
- Implemented infrastructure deployment and management using **Terraform**, incorporating **AWS Certificate Manager** for HTTPS and Route 53 for DNS
- Established an **automated deployment** workflow, enabling updates to Lambdas with a command using a custom **bash script**FabFlix

  Jan 2022 Aug 2022

### Movie Searching Website (Video Demo)

Jan 2022 - Aug 2022 UC Irvine

- Developed a full-stack website called FabFlix that allows users to register and login in order to **search** for over 5000 movies with various parameters incorporating **pagination** to display limited movies at a time
- Incorporated Java with Spring Boot framework for the backend, React for the frontend, and MySQL for the database using JDBC to connect the database with the backend
